2.13.1 Tenders shall remain valid for 60 days or as specified in the invitation to tender after date of tender opening prescribed by the Procuring entity, pursuant to paragraph 2.18. A tender valid for a shorter period shall be rejected by the Procuring entity as nonresponsive.

2.13.2 In exceptional circumstances, the Procuring entity may solicit the Tenderer's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. The tender security provided under paragraph 2.12 shall also be suitably extended. A tenderer may refuse the request without forfeiting its tender security. A tenderer granting the request will not be required nor permitted to modify its tender.

### *2.14 Format and Signing of Tender*

2.14.1 The tenderer shall prepare two copies of the tender, clearly / marking each "ORIGINAL TENDER" and "COPY OF TENDER," as appropriate. In the event of any discrepancy between them, the original shall govern.

2.14.2 The original and all copies of the tender shall be typed or written in indelible ink and shall be signed by the tenderer or a person or persons duly authorized to bind the tenderer to the contract. All pages of the tender, except for unamended printed literature, shall be initialed by the person or persons signing the tender.

2.14.3 The tender shall have no interlineations, erasures, or overwriting except as necessary to correct errors made by the tenderer, in which case such corrections shall be initialed by the person or persons signing the tender.

## **2.15 Sealing and Marking of Tenders**

2.15.1 The tenderer shall seal the original and each copy of the tender in separate envelopes, duly marking the envelopes as “ORIGINAL” and “COPY.” The envelopes shall then be sealed in an outer envelope. The inner and outer envelopes shall:

(a) be addressed to the Procuring entity at the address given in the invitation to tender

(b) bear, tender number and name in the invitation to tender and the words: “DO NOT OPEN BEFORE *Tuesday 30<sup>th</sup> June 2020 at 11.00a.m.*”

2.15.3 The inner envelopes shall also indicate the name and address of the tenderer to enable the tender to be returned unopened in case it is declared “late”. —

2.15.4 If the outer envelope is not sealed and marked as required by paragraph 2.15.2, the Procuring entity will assume no responsibility for the tender’s misplacement or premature opening.

## **2.16 Deadline for Submission of Tenders**

2.16.1 Tenders must be received by the Procuring entity at the address specified under paragraph 2.15.2 no later than *Tuesday 30<sup>th</sup> June 2020 at 11.00a.m.*

2.16.2 The procuring entity may, at its discretion, extend this deadline for the submission of tenders by amending the tender documents in accordance with paragraph 6, in which case all rights and obligations of the procuring entity and candidates previously subject to the deadline will thereafter be subject to the deadline as extended.

2.16.3 Bulky tenders which will not fit in the tender box shall be received by the procuring entity as provided for in the appendix.

## **2.17 Modification and withdrawal of tenders**

2.17.1 The tenderer may modify or withdraw its tender after the tender’s submission, provided that written notice of the modification, including substitution or withdrawal of the tender’s is received by the procuring entity prior to the deadline prescribed for the submission of tenders.

2.17.2 The Tenderer’s modification or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of paragraph 2.15. A withdrawal notice may also be sent by cable, but followed by a signed confirmation copy, postmarked not later than the deadline for submission of tenders.

- 2.17.3 No tender may be modified after the deadline for submission of tenders.
- 2.17.4 No tender may be withdrawn in the interval between the deadline for submission of tenders and the expiration of the period of tender validity specified by the tenderer on the Tender Form. Withdrawal of a tender during this interval may result in the Tenderer's forfeiture of its tender security, pursuant to paragraph 2.12.7.
- 2.17.5 The procuring entity may at any time terminate procurement proceedings before contract award and shall not be liable to any person for the termination.
- 2.17.6 The procuring entity shall give prompt notice of the termination to the tenderers and on request give its reasons for termination within 14 days of receiving the request from any tenderer.

### *2.18 Opening of Tenders*

- 2.18.1 The Procuring entity will open all tenders in the presence of tenderers' representatives who choose to attend, at ***Tuesday 30<sup>th</sup> June 2020 at 11.30a.m.*** and in the location specified in the invitation to tender. The tenderers' representatives who are present shall sign a register evidencing their attendance.
- 2.18.3 The tenderers' names, tender modifications or withdrawals, tender prices, discounts, and the presence or absence of requisite tender security and such other details as the Procuring Entity, at its discretion, may consider appropriate, will be announced at the opening.
- 2.18.4 The procuring entity will prepare minutes of the tender opening which will be submitted to the tenderers that signed the tender opening register and will have made the request.

### *2.19 Clarification of tenders*

- 2.19.1 To assist in the examination, evaluation and comparison of tenders the procuring entity may at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the response shall be in writing, and no change in the prices or substance shall be sought, offered, or permitted.
- 2.19.2 Any effort by the tenderer to influence the procuring entity in the procuring entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderers tender.

Comparison or contract award decisions may result in the rejection of the tenderers' tender.

## **2.20 Preliminary Examination and Responsiveness**

- 2.20.1 The Procuring entity will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required securities have been furnished whether the documents have been properly signed, and whether the tenders are generally in order.
- 2.20.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures, the amount in words will prevail.
- 2.20.3 The Procuring entity may waive any minor informality or nonconformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any tenderer.
- 2.20.4 Prior to the detailed evaluation, pursuant to paragraph 23, the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.
- 2.20.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the nonconformity.

## **2.21 Conversion to a single currency**

- 2.21.1 Where other currencies are used, the procuring entity will convert those currencies to Kenya shillings using the selling exchange rate on the date of tender closing provided by the central bank of Kenya.

## **2.22 Evaluation and comparison of tenders.**

- 2.22.1 The procuring entity will evaluate and compare the tenders which have been determined to be substantially responsive, pursuant to paragraph 2.20
- 2.22.2 The comparison shall be of the price including all costs as well as duties and taxes payable on all the materials to be used in the provision of the services.
- 2.22.3 The Procuring entity's evaluation of a tender will take into account, in addition to the tender price, the following factors, in the manner and to the extent indicated in paragraph 2.22.4 and in the technical specifications:

(a) operational plan proposed in the tender;

(b) deviations in payment schedule from that specified in the Special Conditions of Contract;

2.22.4 Pursuant to paragraph 22.3 the following evaluation methods will be applied:

(a) ***Operational Plan.***

The Procuring entity requires that the services under the Invitation for Tenders shall be performed at the time specified in the Schedule of Requirements. Tenders offering to perform longer than the procuring entity's required delivery time will be treated as non-responsive and rejected.

(b) ***Deviation in payment schedule.***

Tenderers shall state their tender price for the payment on a schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

2.22.5 The tender evaluation committee shall evaluate the tender within 30 days from the date of opening the tender.

2.22.6 To qualify for contract awards, the tenderer shall have the following:-

- (a) Necessary qualifications, capability experience, services, equipment and facilities to provide what is being procured.
- (b) Legal capacity to enter into a contract for procurement
- (c) Shall not be insolvent, in receivership, bankrupt or in the process of being wound up and is not the subject of legal proceedings relating to the foregoing
- (d) Shall not be debarred from participating in public procurement.

### ***2.23. Contacting the procuring entity***

2.23.1 Subject to paragraph 2.19, no tenderer shall contact the procuring entity on any matter relating to its tender, from the time of the tender opening to the time the contract is awarded.

2.23.2 Any effort by a tenderer to influence the procuring entity in its decisions on tender evaluation tender comparison or contract award may result in the rejection of the tenderers tender.

## ***2.24 Award of Contract***

### **a) Post qualification**

2.24.1 In the absence of pre-qualification, the Procuring entity will determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.

2.24.2 The determination will take into account the tenderer's financial and technical capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 2.1.2, as well as such other information as the Procuring entity deems necessary and appropriate.

2.24.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer's tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

### **b) Award Criteria**

2.24.3 Subject to paragraph 2.29 the Procuring entity will award the contract to the successful tenderer whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.

2.24.4 The procuring entity reserves the right to accept or reject any tender and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby incurring any liability to the affected tenderer or tenderers or any obligation to inform the affected tenderer or tenderers of the grounds for the procuring entity's action. If the procuring entity determines that none of the tenderers is responsive; the procuring entity shall notify each tenderer who submitted a tender.

2.24.5 A tenderer who gives false information in the tender document about its qualification or who refuses to enter into a contract after notification of contract award shall be considered for debarment from participating in future public procurement.

## **2.25 *Notification of award***

- 2.25.1 Prior to the expiration of the period of tender validity, the Procuring entity will notify the successful tenderer in writing that its tender has been accepted.
- 2.25.2 The notification of award will signify the formation of the Contract subject to the signing of the contract between the tenderer and the procuring entity pursuant to clause 2.29. Simultaneously the other tenderers shall be notified that their tenders have not been successful.
- 2.25.3 Upon the successful Tenderer's furnishing of the performance security pursuant to paragraph 31, the Procuring entity will promptly notify each unsuccessful Tenderer and will discharge its tender security, pursuant to paragraph 2.12

## **2.26 *Signing of Contract***

- 2.26.1 At the same time as the Procuring entity notifies the successful tenderer that its tender has been accepted, the Procuring entity will simultaneously inform the other tenderers that their tenders have not been successful.
- 1.4.1 Within fourteen (14) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to the Procuring entity.
- 1.4.2 The parties to the contract shall have it signed within 30 days from the date of notification of contract award unless there is an administrative review request.

## **2.27 *Performance Security***

- 2.27.1 Within thirty (30) days of the receipt of notification of award from the Procuring entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to the Procuring entity.
- 2.27.2 Failure of the successful tenderer to comply with the requirement of paragraph 2.29 or paragraph 2.30.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated or call for new tenders.

## **2.28 *Corrupt or Fraudulent Practices***

- 2.28.1 The Procuring entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. A tenderer shall sign a declaration that he has not and will not be involved in corrupt or fraudulent practices.

- 2.28.2 The procuring entity will reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
- 2.28.3 Further, a tenderer who is found to have indulged in corrupt or fraudulent practices risks being debarred from participating in public procurement in Kenya.

## Appendix to instructions to tenderers

The following information for procurement of services shall complement or amend the provisions of the instructions to tenderers. Wherever there is a conflict between the provisions of the instructions to tenderers and the provisions of the appendix, the provisions of the appendix herein shall prevail over those of the instructions to tenderers

- The solution should also have in-built threat control mechanism to restrict unsolicited, untrustworthy, malicious Email messages.
- The solution should have capability to protect user from Information or Identity Theft.
- The solution should have Safe Links feature which should proactively protects Nzoia's email users from malicious hyperlinks in a message. The protection should remain every time they click the link, as malicious links must be dynamically blocked while good links can be accessed.
- The solution should have Safe Attachments which should protects against unknown malware and viruses, and provides zero-day protection to safeguard messaging system. All messages and attachments that don't have a known virus/malware signature are routed to a special environment which should have analysis techniques to detect malicious intent. If no suspicious activity is detected, the message should be released for delivery to the user's mailbox.
- The solution should have Spoof intelligence which should detects when a sender appears to be sending mail on behalf of one or more user accounts within our organization's domains. It should enable administrator to review all senders who are spoofing our domain, and then choose to allow the sender to continue or block the sender.
- The solution should have capability to quarantine messages identified as spam, bulk mail, phishing mail, containing malware, or because they matched a mail flow rule. users can review, delete, release or manage email messages sent to quarantine.

- It should have machine learning models to detect phishing messages.
- Advanced Threat Protection should be robust and should not take more than 10 min to evaluate safe attachment & safe link for delivery of emails with attachments or Links.
- It should have rich reporting capability and web based interface with ability to generate customizable reports as per nzoia requirements and complete informative dashboard (e.g. Message Disposition report, malicious file type report, Single view Threat protection status.)
- The solution should support industry standard encryptions such as AES-256, TLS 1.1, TLS 1.2 (without CBC Mode Encryption) or above and relevant secure versions as and when released during the entire Contract Period between Server to Server & Server to Mail Clients. For integration with external applications, application needs to have well defined APIs and application needs to ensure that only authorized application can invoke such APIs.
- Web Access to Email should be through HTTPs (latest SSL Certificate should be installed).
- The solution should support Digital Signature of Email messages and encryption at Rest & Transit.
- To define and identify the data classification. OEM to enforce nzoia's access requirements based on data classification.
- To share what compartmentalization techniques are employed to isolate Nzoia's data from other customer's data.
- To comply with data retention and destruction schedules/Policy as published in OEM's Online Services Terms and to certify on nzoia's request destruction of all data at all locations.
- Understand the logical segregation of information and protective controls implemented.
- Understand Cloud provider policies and processes for data retention and destruction and how they compare with internal organizational policy.
- Perform regular backup and recovery tests to assure that logical segregation and controls are effective.
- Ensure that Cloud provider personnel controls are in place to provide a logical segregation of duties.
- To provide Forensic Investigation Support as and when required by nzoia.
- The solution should provide protection at multiple levels and at multiple checkpoints in the messaging infrastructure, including messaging SMTP gateway and Mailbox servers, helping to stop viruses, worms, and spam before they impact the network or user productivity.
- Support for mail clusters should be provided to ensure that both active and passive nodes have the most up-to-date configuration information, filtering policies and signatures, so that the messaging traffic can remain mail even if individual mail servers fail.
- It should provide support for scanning any files that use structured storage and the OLE embedded data format (for example, .doc, .xls, .ppt, or .shs) as container files. This ensures that any embedded files are scanned as potential virus carriers.
- It should provide comprehensive Antivirus protection against the latest threats and viruses by using multiple levels of checks involving multiple technologies.
- The solution should provide functionality to run manual & quick scans on email message mailboxes on predefined schedules, in addition to real-time checks on incoming messages.

- It should have the capability to detect and stop the propagation of common malicious code (worms) via email messages.
- Scanning of emails should be supported the following configurations:
  - a. Scanning of inbound mails
  - b. Scanning of outbound mails
  - c. Scanning of internal mails
  - d. Mailbox scanning
  - e. On access scanning
    - It should support domain-level black and white lists.
    - It should proactively target patterns common in spam campaigns.
    - It should support DNS Based Distributed black lists.
    - It should employ checks based on Sender ID.
    - It should be possible to detect and delete mails addressed to mails ids non-existent in the organization.
    - It should allow administrators to quickly create custom organization-wide content filters to handle messages based on content, sender information, or other criteria.
    - It should allow File Filtering to block files based on the following parameters.
      - a. Type (true type)
      - b. Size
      - c. Direction (inbound or outbound)
      - d. Nested zip archives
      - e. Container documents
        - It should provide keyword (body text) based filtering. It should filter messages based on a variety of words, phrases, and/or sentences. Also, a provision for administrators to download filter lists for profanity, racial discrimination, sexual discrimination, and spam should be made available.
        - The solution should provide tight integration and compatibility with the underlying messaging infrastructure.
        - It should have maximum uptime during the definition signature updates and mail flow should not be affected/stopped/or queued during definition updates.
        - It should provide protection against latest threats using rapid release of definitions.
        - It should have high availability features and should have no single point of failure at any level.
        - It should provide multi-threaded and in-memory scanning to increase performance of the messaging server.
        - It should provide ways to optimize the performance of the message server while providing effective protection through the use of administrator configurable options.
        - It should offer consolidated reporting which gives administrators visibility into aggregated filtering performance for deployed servers.
        - It should allow administrator to create e-mail Notifications based on disposition or category of message.
        - It should allow central signature customization of all mailboxes.
        - State your previous experience with the undertaking firms to institutions that ever performed the service (attach a proof) to a firm the size of NSC or bigger.
        - 2 Years SLA for support and maintenance.

**Note**

- Vendor visits may be carried out to confirm the above information and form part of the evaluation, before a final decision is made.
- After award, site visits may be carried out to prove the performance and the condition of the works to be confirming to the standards as per tender documents.
